Summary

UX Researcher/Designer with 4+ years of experience creating user-centered digital products. Experienced in UX research, interaction design, prototyping, and UI design, with a strong focus on solving user and business problems. Brings experience from agile startup environments, and uses AI as a practical extension of the research workflow to think faster, explore more deeply, and raise the overall quality of the work.

Work Experience

User Research & UX Design | Nov 2024 – Apr 2026 (1 year 5 months)

Mahdaad (On-site)

- Led end-to-end UX research initiatives, from defining research objectives and developing research plans to execution, analysis, and insight delivery.
- Conducted in-depth user interviews to uncover user needs, pain points, and motivations, and validated key findings with larger user samples to reduce assumption-driven decisions.
- Performed competitive analysis to identify market opportunities, usability gaps, and product differentiation.
- Conducted heuristic evaluations based on Nielsen Norman Group principles to surface critical usability issues early in the design process.
- Planned and conducted usability testing from low- to high-fidelity prototypes, delivering prioritized insights that guided design improvements.
- Analyzed user behavior using Microsoft Clarity to identify friction points and interaction breakdowns affecting task completion.
- Conducted closed card sorting studies to inform information architecture decisions for the Agility website and improve content discoverability.
- Designed and analyzed surveys for various research needs, including post-webinar feedback evaluation for the Agility product.
- Collaborated with product managers (PMs), designers, and marketing to prioritize research and drive data-informed decisions.

User Research & UX/UI Designer | Aug 2023 – Aug 2024 (1 year)

DesignXcelence (Remote)

- Applied user-centered design principles to identify user needs and business needs and develop solutions.
- Benchmarked relevant internal and external websites.
- Designed a medical appointment web application based on user needs.

UX/UI Designer | Aug 2023 – Dec 2023 (5 months)

Metavers Salamat (On-site)

- Analyzed competitors to identify strengths, weaknesses, opportunities, and threats (SWOT).
- Redesigned the Metavers Salamat app and its information architecture.
- Conducted UX research on insurance and health applications in Iran.
- Conducted A/B testing on different designs.

UX/UI Designer | Apr 2023 – Jul 2023 (4 months)

OneDayApp (Freelance)

- Conducted client meetings to understand requirements and developed project roadmaps.
- Provided consulting and ideation support to help clients structure and refine their ideas.

User Research & UX/UI Designer | Jan 2022 – Mar 2022 (2 months)

Pet vet clinic (Course Project)

- Designed and conducted UX research, including user interviews and survey development, to create affinity diagrams and identify potential users.
- Led information architecture and interaction design to complete the website design.

Skills

- **Research Methods:** End-to-End UX Research, Mixed-Method Research (Qualitative & Quantitative), User Interviews, Survey Design, Usability Testing (Lo-Fi to Hi-Fi), Heuristic Evaluation (Nielsen Norman Group), Competitive Analysis & Benchmarking, Card Sorting, A/B Testing
